

Price List

Sensor Sciences LLC

3333 Vincent Road, Suite 103

Pleasant Hill

CA 94523

Ph/Fax: 925-296-0848/0849

Date: 4/17

Detector Modules

200mm cross delay line anode MCP detector, open face	On request
60mm cross delay line anode MCP detector, open face,	On request
40mm cross delay line anode MCP detector, open face,	\$57,500.00
25mm cross delay line anode MCP detector, open face,	\$37,000.00
25mm cross delay line anode MCP detector, sealed tube	On request
25mm phosphor/MCP detector, open face,	\$27,601.00
100mm cross strip anode MCP detector, open face,	On request
40mm cross strip anode MCP detector, open face,	On request
25mm cross strip anode MCP detector, open face,	On request
Photocathode coatings (CsI, KBr, etc)	\$2,800.00
Photocathode QE measurement, open face MCP detectors. (5 lines), (304Å – 1200Å, or 1200 – 1800Å)	\$2,069.00

Electronics Modules

Dual start-stop time to digital converter, 13 bit, model DSTDC-II, NIM	\$11,750.00
Dual start-stop time to digital converter, 13 bit, model DSTDC-II +box	\$13,112.00
Cable set for XDLA100 to DSTDC, 4 x SMA-SMA, 6 x SMA-BNC+	\$947.00
Timing (4) & charge (2) channel amplifier, model XDLA100	\$3,950.00
Fast timing pickoff amplifier, FTA1000	\$900.00
NIST diode electrometer module (options for EUV or FUV diodes)	\$5,500.00

Data Acquisition

"EtherDaq", Data acquisition GUI for TDC's, Win-7	\$750.00
"EtherBridge", Data interface NIM for TDC's to 1Gb Ethernet, NIM	\$1,525.00
"EtherBridge", Data interface NIM for TDC's to 1Gb Ethernet, box	\$2,628.00

Note: Prices subject to change, please check before ordering
For detailed specifications inquire at info@sensorsciences.com
Custom items are available on request please inquire.
